Cybersecurity standards and certification – the challenges

5 September 2018

EU Cybersecurity Act

Certification aspects

Current status

Next steps

Standards

ISO activity – Common Criteria update

Products or Processes?

Secure by Design

CCRA

Common Criteria Recognition Arrangement

28 nations as members (total population 2.2 billion)

17 producing nations

Collaborative Protection Profiles

SOG-IS

Focus on smartcards and payment terminals

ENISA and ETSI

ENISA – European Network and Information Security Agency

If Cybersecurity Act is passed then ENISA will be responsible for the certification framework.

ETSI – European Telecommunications Standards Institute

Global standards body based in Europe

Standardising Secure by Design. May have greater role in future.

National Cyber
Security Centre
