- Cyber risk assessment tool – Understand vulnerability levels
- Lightweight Cybersecurity seal – in collaboration with SGS

Resources from the Marketplace

Cybersecurity and Privacy Training

- [CANVAS MOOC](#): The Massive Open Online Course is an overview of the central principles and challenges in the fields of cyber security, privacy and trust.
- [Training on the GDPR by GRUPO CFI](#): This online course, held in Spanish, deals with all the requirements and obligations established by the General Regulation of Data Protection of Europe (GDPR).

Risk management services

- [Ethical Hacking Services by Shorr Kan IT Engineering S.r.L.](#): This provides penetration test services, simulating cyber security attacks.
- [H-PREDICTIVE PLATFORM](#): This merges digital twins and adversary simulation to anticipate attacks and manage risk in an ICT infrastructure, through a lifelong continuous process of assessment and adjustment.

Privacy tools and services

- [Clym](#): This platform is a solution for global privacy needs, which allows the management of cookies, policies, procedures, terms & data subjects' requests while automatically building evidence through consent receipts.
- [OPERANDO PlusPrivacy](#): This provides a unified dashboard for protecting the users from a variety of privacy threats.

Consultancy services

- [Security Advisory service by @Mediaservice.net](#): Analysis & Testing, assessing the level of safety of a defined area, and Compliance & Governance, improving safety management, and ensuring compliance with laws and market standards.
- [Consulting services by BL4CKSWAN SRL](#): Four kinds of services: support with advice or directly managing the certification process, risk control, training, and frontier security.

ECSCO Cyber Solidarity Campaign

- ◆ Healthcare sector resources
- ◆ General COVID-19 resources
- ◆ National/regional initiatives
- ◆ Working from home
- ◆ Cyber attacks during COVID-19
- ◆ [Download](#)

Online Survey: Cybersecurity and Privacy in Covid-19

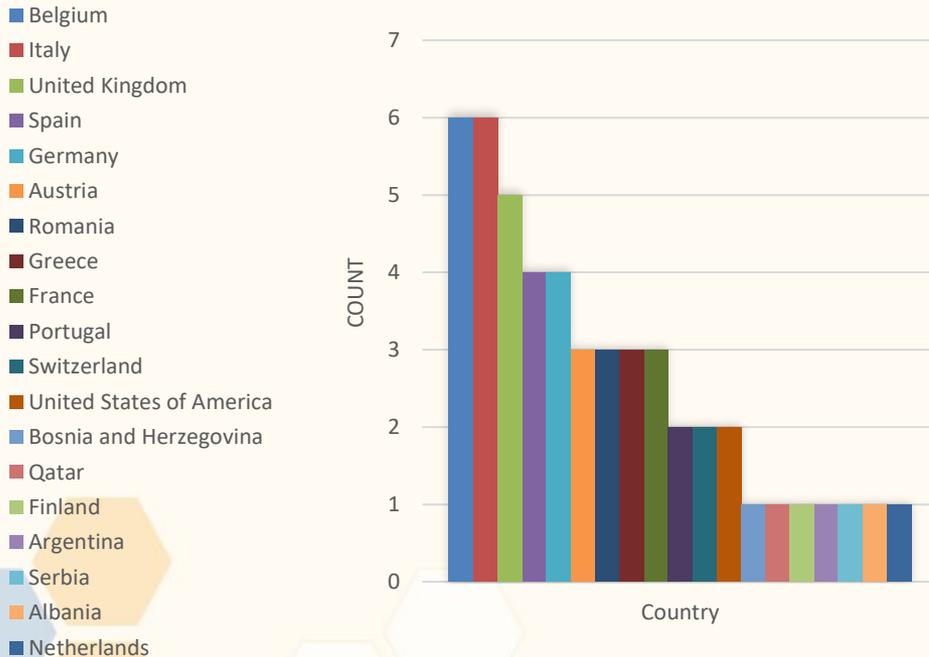

- ◆ **Aim:** understand the change in social interactions and at the same time to understand society's acceptance of the social good of giving up some of their privacy
- ◆ **4 areas:** Online transactions, Privacy Tracking apps, GDPR, Health Data
- ◆ **Completion time:** 10 minutes
- ◆ Personal data not collected
- ◆ Results will be collected and analysed in D3.5 Risk and recommendations on cybersecurity services
