## StandICT.eu in a nutshell

1.4 Million € funding ICT  
Standards experts

### MAIN OBJECTIVES:

- Support the participation of competent ICT Standards Experts in the development of the standardization landscape
- Ensuring promotion of European requirements and interests
- Awareness raising on the advantages of adopting ICT Standards

### 3 typology of grants available

- **Long - Term** € 5000 - € 8000 (up to 12 months)
- **Short – Term** € 1000 - € 5000 (up to 6 months)
- **One – Shot** € 1000 - € 3000 (meetings)

The project topics follow the priority areas outlined in the **2019 ICT Rolling Plan for Standardisation** (and its future updates)

*An influential Expert Advisory Group (EAG) and External Pool of Evaluators (EPE) support the project's activities.*

## The Success Story So Far – Fact & Figures of the first 5 Open Calls

318 Eligible Applications

152 Funded Projects

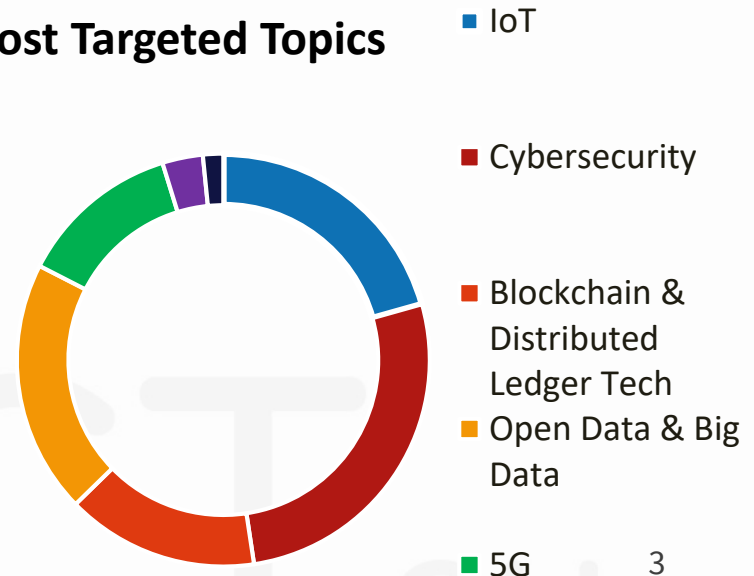

Applications from **20 EU Member States and 3 associated members**. The most represented MSs (eligible proposals) are *France (39), Germany (25), Ireland (18), United Kingdom (29) and Spain (32)*.

**20 Topics** covered (out of the 30 outlined in the 2018 Rolling Plan for ICT Standardisation).

**Cybersecurity** is the trending topic with a whopping **39 funded applicants!**

### Most Targeted Topics

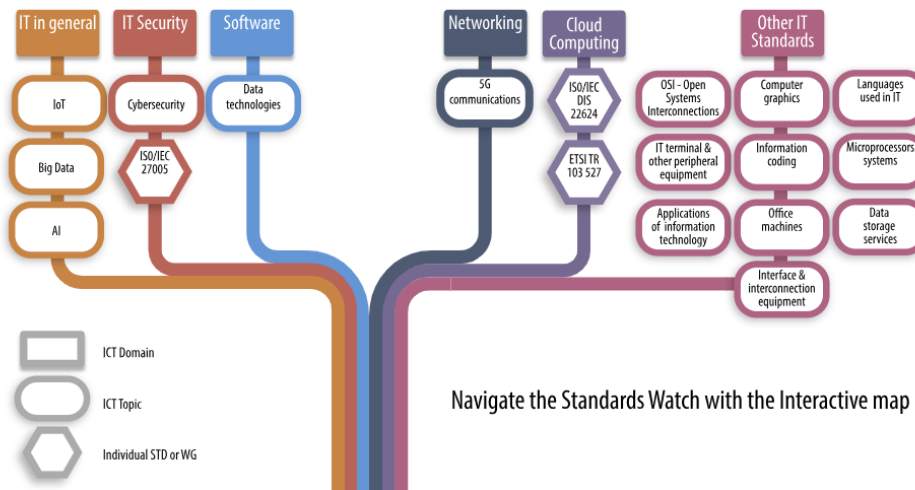

The **Standards Watch** monitors the status of ICT standards at international level, mapping critical areas such as **Cybersecurity, 5G, Cloud Computing, IoT, Big Data** and **Artificial Intelligence**:

### Standards Watch

Click On The Interactive Map Below Or Utilise The Filtering Interface On The Side To Browse The Items That Are Currently In Our Standards Watch\*.

Navigate the Standards Watch with the Interactive map

The **Standards Watch** of StandICT.eu monitors the status of ICT standards at international level, starting from the five priority areas of the Digital Single Market:

#### Search by title

#### Filter Standards by ICT Domain:

- Cloud computing (2)
- IT in general (59)
- IT Security (53)
- Networking (3)
- Software (0)
- Other IT standards (1)

#### Filter Standards by Topic:

- IoT (28)
- Big Data (7)
- Artificial Intelligence (30)
- Cybersecurity (5)

**Coming in the following months: EU priorities Call Out ,Gap Analysis, Monitoring & Impact**

## 6<sup>th</sup> Open Call is up and running!

Deadline: 30<sup>th</sup> April 17.00 CEST

**WORKING ON ICT STANDARDS?**

Apply for funding through the 6<sup>th</sup> Open Call!

Deadline: 30 April 2019, 17:00 CET

Paris
